

Wip Tech / Documentación para Integradores

Ambiente QA

Versión 2.3

Última actualización: Febrero 2026

Confidencial – Uso exclusivo para procesos de evaluación e integración

Este documento describe los endpoints y lineamientos técnicos necesarios para integrar sistemas externos con la plataforma Wip.

La API permite:

Crear servicios

Consultar servicios por diferentes criterios

Consultar suscripciones

Recibir actualizaciones en tiempo real mediante Webhooks

Gestionar información operativa asociada a servicios en campo

Alcance

Esta documentación está dirigida a equipos técnicos (developers, arquitectos de software y líderes de integración) responsables de implementar la conexión entre sus sistemas internos y Wip.
